

Die Barmherzigen Schwestern des hl. Vinzenz von Paul in Thailand sind sehr aktiv. Ihr Schulprojekt, in dem Kinder aus christlichen, moslemischen und buddhistischen Familien unterrichtet werden, wurde vom Missio bereits unterstützt. Sie sind dankbar für die finanzielle Unterstützung und hoffen weiter auf die dringend nötige Hilfe für ihren wertvollen Dienst an der Gesellschaft.

### **VII. Objectives of the Project:**

- 1. To support the education of the underprivileged but deserving Buddhist and Muslim children from Kindergarten to Elementary level.*
- 2. To provide quality education and value formation to these children.*
- 3. To assist the families who are poor in the education of their children.*

### **VIII. Activities:**

- **Home Visitation**

Home visitation is an important means to know the children and their families. It is through home visitation that closer relationship will develop among the sisters, the teachers, the children and their families.

- **Academic Training**

The children are enrolled in the Daughters of Charity Kinder School. This school is managed by the Sisters; the Daughters of Charity of St. Vincent de Paul. The children are given quality education. They also joined inter-school academic competitions as well as National Examinations wherein some children got an award for their good performance.

- **Socio-Cultural Activities**

To develop children's potentials, varied activities are being provided. There are many activities given to enhance their talents in Arts, Music and Sports. Some children are good in drawing and clay molding. This year 3 kindergarten children won gold medals in the provincial clay molding competition. Two elementary children also won gold medals in the inter-school singing contest. Sports Day Activity both in the local and in the provincial level is a very good

means in developing the children's love of sports and practicing the value of sportsmanship.

- **Activities of Missionary Animation**

The children benefited by the project are all from the Buddhist and Muslim religion. Although they are not Catholics, they actively join catholic religious activities like Marian Feasts, Feast of our Founders, Church Feast and Christmas Activities. The children are also given formation wherein they are taught to respect and appreciate the different religions. Visiting the poor and sharing food to them is also a part of our Missionary Animation activity.

## **IX. Analysis**

### **1. Strength**

- The objectives of the Project were achieved.
- The children become more active and alive. They are diligent in their studies and are willing to join all the activities provided for them.
- They become more appreciative of their own culture, their own religion as well as other religions especially the catholic religion.
- The parents are very cooperative and active during activities.
- The children have good grades which enable them to go to the next level of education.

### **2. Weakness**

- Some parents cannot afford to give full support with regards to giving their share in the expenses of their children.
- Some children are under the care of their elderly and sick grandparents because their parents are separated. In this case , children has no follow up at home with regards to their homework or other assignments.

## **X. The Way Forward**

The children of today will be the leaders of the future. It is not only a choice to give them quality education. It is their right. They deserve to have it. It is through this project that these children will be given full support and attention. The Sisters and the teachers of the Daughters of Charity Kinder School give their best effort for the accompaniment of these children . May the Missionary Childhood continue to support and be one with us so that our dream for these children will become a reality.

We pray that our Lord Jesus, lover of children, shower abundant blessings upon us and to all our Benefactors and their families.
